

Declaration to EN 16479 and DIN EN ISO 5667 Conformity of Hach AS950 Automated Samplers

We hereby declare that Hach AS950 Automated Samplers comply with the European standard EN 16479.

Water quality – Performance requirements and conformity test procedures for water monitoring equipment – Automated sampling devices (samplers) for water and wastewater.

The AS950 design and performance align with the requirements and principles of DIN EN ISO 5667, particularly part 3 on sample preservation and handling, and meets the relevant sampling quality criteria consistent with the standard.
